Generative AI*

ABOUT THE CONFERENCE

This two-day workshop offers PhD students and early-career economists detailed feedback on work in progress. Each of the **12 selected presenters** is given a 50-minute slot with an assigned discussant and extended discussion. There are no parallel sessions. Work on African economies is of particular interest, especially research focused on South Africa.

TOPICS

- Applied microeconomics
- Macroeconomics and public finance
- Econometrics
- Political economy and economic history
- Development economics
- Behavioural economics
- Industrial organisation
- Related fields

KEY DATES

Submission deadline	4 September 2026
